

WHAT IS FLOOR BUNDING?

Floor bunding can be used to both contain and divert hazardous liquids in the event of a spill. It is a simple and low cost option to safely bund off an area subject to both human and vehicle traffic.

THERE ARE 5 TYPES OF FLOOR BUNDING AVAILABLE

PVC

Rubber

Megabund

Barrier

Aluminium

To select the right floor bunding think about the spill volume and type of traffic the area will be exposed to:

WHAT IS THE SPILL CAPACITY?

Low
Megabund,
aluminium

Mid
Barrier,
aluminium

High
Rubber, portable
collapsible

WHAT IS THE TRAFFIC EXPOSURE

Foot traffic
Rubber, PVC,
aluminium, Barrier

Light vehicle
Rubber, PVC,
Barrier

Forklifts
PVC, Megabund,
aluminium

Heavy vehicle
Aluminium

THEN SELECT YOUR BUNDING TYPE

PVC Floor Bunding

Use

- Indoor
- Chemical Stores
- Oil Depots
- Logistics Warehousing
- Workshop Facilities
- Washdown Areas

Features

- Contains a high volume of hazardous spills with a 100mm profile
- Perfect for moderate amount of human and light vehicle traffic
- Forklift friendly = low clearance
- Easy to install
- Economical
- Returns to original shape after being driven over
- Great for diverting run off
- Flexible for uneven contours non straight runs

Rubber Floor Bunding

Use

- Wash Bays
- Fuel Dispensing Areas
- Oil Storage Facilities
- Chemical Manufacturing
- Warehouse

Features

- Contains medium volume of hazardous spills with a 40mm profile
- Perfect for high volume human & light vehicle traffic
- Easy installation
- Excellent chemical resistance
- Flexible to suit uneven, hard surfaces

Megabund Floor Bunding

Use

- Workshops

Features

- Contains low volume hazardous spills with a 25mm/32mm profile
- Excellent for heavy vehicle traffic in high traffic areas
- Forklift friendly = Low clearance

Barrier Floor Bunding

Use

- Mechanics
- Food/Beverage
- Supermarkets

Features

- Contains low volume of hazardous spills with 24mm/40mm profile
- Great for high foot traffic areas and light vehicle traffic
- Quick and easy to install

Aluminium Floor Bunding

Use

- Wash Bays
- Fuel depots
- Truck parking facilities
- Petrol Stations

Features

- Contains medium volume of hazardous spills especially explosive vapour mixtures with a 33mm profile
- Solid & robust to withstand heavy traffic over long period
- Forklift & B Double friendly – low clearance
- Ideal for flammable liquid containment
