

ABOUT

DefendaWipes

Take the worry out of an unsafe workshop. Remove oils fast and get surfaces clean with absorbent wipes.

Our industrial wipes have a unique spunlace composition, meaning they are low linting, leave no residue and are very user-friendly. They are extremely strong and absorbent, wiping surfaces clean instead of smearing like traditional rags. Ideal for heavy duty cleaning tasks for cleanup of oil, grime and solvents.

APPLICATIONS

- Workshops
- Mining
- Maintenance
- Healthcare
- Cleaning & Janitorial
- Food Processing
